WORK

Flytedesk

Director of Engineering

Present

- Hire, onboard, develop, and maintain culture of Flytedesk engineers
- Scrum master using the agile methodology
- Collaborate with the product team to carry feature needs from the road map all the way through implementation
- Hold regular 1-1s with 7 direct reports
- Conduct code reviews as needed
- Facilitate the most efficient/beneficial technical decisions for the team
- Create and oversee both development and testing processes

Front End Lead, Hiring Lead

2018 - 2019

- Built front end components using Vue.js/GraphQL
- Restructured the Flytedesk hiring process to build the current engineering team

Novetta

UX Engineer

2015 - 2018

- Built UI components using various front end frameworks for custom intuitive user experiences
- Coordinated weekly UX meetings to review and discuss new features with users, designers, and developers

Northrop Grumman

Software Engineer

2013 - 2015

- Implemented a robotic situational awareness application that displays multiple networked weapon systems

Technical Intern

2012 - 2013

EDUCATION

Athens State University

BS Computer Science | 2013
